

\$10.10

This business supports a federal minimum wage of at least \$10.10 an hour that adjusts annually with the rising cost of living.

The current federal minimum wage is \$7.25 an hour, which is just \$15,000 a year for full-time work. A gradual increase to \$10.10 would give 28 million Americans a raise — providing billions more dollars in earnings every year for families to spend in American businesses.
